AN AMAC AEROSPACE COMPANY

SPECIALISTS IN  
**AVIATION ASSET MANAGEMENT**

# COMPANY BRIEF

Gamit was founded in 1990 and selected London Stansted Airport as its headquarters location at the time due to the expansion plans for it to become a major London International Airport. The specific aim of Gamit was and still is to supply professional and technical support to local and international MROs (Maintenance Repair Organisation), airlines, private and corporate aircraft owners. From inception Gamit has seen a stable growth proving an upward trend year on year in profits which in turn has increased services offered to its customers worldwide, ranging from financial institutions from the United States of America to contracts with MROs as far as the Far East.

The support and services Gamit offers include: consultancy, engineering project management, technical representation, engineering record audits, a ground breaking solution called ROAM for the digitisation and management of aircraft records, and a stockist of aircraft spare parts supporting supply chain management requirements on both Commercial and Business Aviation aircraft platforms.

## 03 TECHNICAL SERVICES

## 04 RECORDS MANAGEMENT

## 05 MATERIAL AND LOGISTICS SUPPORT

The key to Gamit's growth is our ability to understand the customer's needs and exceeding their expectations in achieving the goal. Over the years, Gamit has built a strong reputation for a professional, high quality and flexible service targeting long term relationships.

An important driver to Gamit's success is the services provided within the VIP and Head of State area of completion projects. In recent years Gamit has been proud to support some of the world's finest and largest projects in aviation history which has contributed to Gamit earning a strong reputation in this respect.

In 2021 Gamit merged with AMAC Aerospace Switzerland AG to further enhance services and client support delivered to the Aviation market place, internationally.

AMAC Aerospace is a well-established Group of Companies, dedicated to Aircraft Maintenance (MRO), Aircraft Completion and supporting services, with the Group Headquartered in Basel, Switzerland.

# QUALITY

The management at Gamit deliver customers years of aviation experience and knowhow from a variety of areas within the aviation industry. Customers can be confident that through collective knowledge, appropriate decisions and actions are being made and delivered.

Gamit's operates with a quality first concept. The business controls process and procedures that are in accordance with ISO standards. In order to ensure the highest client satisfaction is delivered, Gamit's quality manuals, forms and procedures are in the first place in accordance with ISO9001:2015; and AC 00-56A. Additionally, to provide clients reassurance that their data is important to us,

Gamit also holds ISO27001:2013. Both 3rd party quality accreditations ensure that Gamit has a stringent system of work parameters, minimising the possibility of error and ensuring business continuity.

# CONSULTANCY

Through Gamit's wealth of experience in aircraft engineering, whether the request is for heavy maintenance or taking on a green aircraft needing completion, rest assured Gamit has the ability to prepare a proposal for the customer. Some of the specialist areas of practice are below:

- VIP completion and refurbishment projects
- Aircraft maintenance
- MRO selection
- Aircraft sourcing and marketing
- Technical fleet management
- Technical legal assistance

# TECHNICAL SERVICES

## AIRCRAFT LEASE MANAGEMENT

Due diligence is always an essential part in any transaction between individuals or companies. Within aviation, due diligence can often require a very technical and specialist set of skills and knowledge. Since Gamit's inception, aircraft records have been audited for a variety of clients ranging from private individuals to leasing companies. Requirements often include ad hoc technical assessments of aircraft to full fleet support in this regard.

Gamit's technical auditors are tasked with the assessments of engines, gears and airframes at midlife lease intervals and end of lease returns. With the ever-increasing complexity of commercial airline leases, whether its regarding maintenance reserves, component support, Gamit's knowledgeable team will provide clients with solutions.

## END OF LEASE AUDITING

Auditing can be a daunting task for certain operators that either have older assets, or a rapidly growing or changing work environments. By applying tried and tested process and procedures in addition to Gamit's solution called ROAM, these challenges can be simplified and resolved in an efficient and cost-effective way.

# RECORDS MANAGEMENT

## PROFESSIONAL SERVICES

Gamit offers services to complement the realisation of a digital strategy and is typically tailored to each client's requirements:

- Scanning
- Indexing
- Document review & recommendation
- MRO liaison
- Full end of lease services

Through decades of collective experience in handling aircraft airworthiness records, Gamit has developed an Online solution to support all parties involved with aircraft records management & auditing. Designed at the heart to handle records, ROAM is capable to interface with most planning or ERP systems, with added benefits for various operator types. This solution is targeted to handle copies of compliance records also known as "dirty fingerprint" records for proof of airworthiness. The system is designed to assist an aircraft operator, lessee, lessor, MRO or a CAMO.

ROAM becomes the central library of records for the aircraft, accessible globally online. With industry leading Audit functionality, records are easily uploaded and assessed in an extremely efficient way. With reporting features, automatic OCR and exceptionally fast search capabilities, record keeping and auditing is made easy with ROAM.

# MATERIAL AND LOGISTICS SUPPORT

## SUPPLY

Supplying material at a competitive price and delivering on time is always a Gamit priority. Utilising stringent quality procedures governed by ISO9001:2015 the Gamit team will endeavor to meet the customers' demands whenever called upon. Supplying all customer needs with consumables, rotables, life limited parts, landing gears and engines. Gamit is confident in offering these services on all aircraft types in particular, specialist knowledge on Boeing and Airbus families.

## LEASING

Gamit's material department offers consignment stock leasing. Whether positioning a batch of parts at flight destinations, a new hub, or a complete inventory, Gamit will look to offer flexible terms to suit aircraft type and fleet size. Allowing the customer to add or remove parts as necessary, this is often an attractive option for fleets of aircraft.

## REPAIR MANAGEMENT

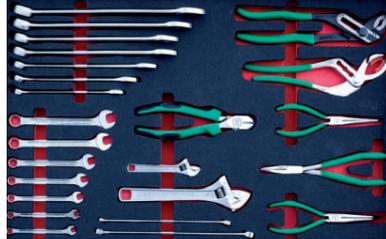

Through a strong network of Gamit's approved repair workshops, customers can rely on the Gamit repair management team. Offering complete peace of mind the Gamit team will manage the end to end process of all repairs. Whether it is a straight forward rotatable repair or the complete overhaul of landing gears, engines or APU's Gamit has an extensive repairs capability list. Gamit is able to offer customers added value with zero rate BER and often long warranty periods with full monitoring service on many components.

## TOOLS & GROUND SUPPORT EQUIPMENT

Over the years Gamit has assisted a number of airlines and maintenance facilities around the world, gain approvals and support with providing tooling for aircraft or engines, hangar equipment and other forms of support for aircraft maintenance. This includes a range of Ground Support Equipment, be it an aircraft tug, auxiliary power unit or staging.

## LOGISTICS

Providing a component at the right price is only half the job in material support, getting the component to the customer on time is the vital element in the process. The Materials department is very aware of time factors. This is why through using a number of trusted logistics partners Gamit is confident that whether the consignment is an AOG or routine shipment Gamit will monitor, track and inform the customer throughout the process. Gamit will follow the shipment until customs are cleared and it has been signed for at the end destination.

*“We believe that by listening to our customers and providing a cost effective service, as well as focussing on quality and attention to detail, we can become a trusted industry partner to be relied on.”*
